User Manual: Login and Create Account Feature

Welcome to the user manual for the login and create account feature of our application. This section will guide you through the process of logging into your account and creating a new one if you're a new user.

Logging In:

1. **Accessing the Login Page:**

   - Open your preferred web browser and navigate to the login page of our application.
   - If you're not already logged in, you will be redirected to the login page whenever you try to access the root of the site.

2. **Entering Your Credentials:**

   - On the login page, you'll find two input fields: one for your username and another for your password.
   - Please enter your username and password in the respective fields.

3. **Submitting Your Credentials:**

   - Once you've entered your username and password, click on the "Login" button to submit your credentials.

4. **Authentication:**

   - After submitting your credentials, our system will authenticate your information.
   - If the provided username and password match an existing user in our database, you'll be logged into your account successfully.
   - If there's an issue with the provided credentials (e.g., incorrect username or password), you'll receive an error message indicating the problem.

Creating a New Account:

1. **Accessing the Create Account Page:**

   - If you're a new user or don't have an existing account, you can create a new one by accessing the create account page.
   - Navigate to the login page, where you'll find a "Create Account" button below the login form.

2. **Switching to Create Account Form:**

   - Click on the "Create Account" button to switch from the login form to the create account form.

3. **Entering Account Details:**

   - In the create account form, you'll find two input fields: one for choosing a username and another for setting a password.
   - Please choose a unique username and a secure password for your new account.

4. **Submitting Account Information:**

   ○ Once you've entered your desired username and password, click on the "Create Account" button to submit your information.

5. **Account Creation Confirmation:**

   ○ After submitting the account creation form, our system will process your information.
   ○ If the chosen username is available and meets our requirements, your account will be created successfully.
   ○ If there's an issue with creating your account (e.g., username already exists), you'll receive an error message indicating the problem.

Additional Information:

- **Error Handling:**

  ○ Our system provides error messages to help you troubleshoot any issues that may occur during the login or account creation process.
  ○ If you encounter any errors or have difficulty logging in or creating an account, please read the error messages carefully and follow any instructions provided.

- **Security Measures:**

  ○ We take the security of your account information seriously and use encryption and secure authentication methods to protect your data.
  ○ Please ensure that you choose a strong and unique password for your account to maintain its security.
